In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Targeted Inmate/Resident/Detainee Interview	s	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	12	
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/ resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/ residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".		
60. Enter the total number of interviews conducted with inmates/residents/ detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	1

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	YesNo
Was the site review an active, inquiring proce	ess that included the following:

conversations).	

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	YesNo
91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

Standards

Auditor Overall Determination Definitions

- Exceeds Standard (Substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard (requires corrective actions)

Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.11

Zero tolerance of sexual abuse and sexual harassment; PREA coordinator

Auditor Overall Determination: Meets Standard

- (a) An agency has a written policy, 9.49-5 in English and Spanish, mandating zero tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency's approach to preventing, detecting, and responding to such conduct.
- (b) The agency employs an upper-level, agency-wide PREA coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities, as evidenced by an interdepartmental project manager job description, the RIDOC org chart, and multiple certificates of completion of specialized training. As noted in the PAQ, the PREA coordinator reports to the Assistant Director of Institutions & Operations ("ADIO") and the ADIO reports to the Director. This was verified by the PREA coordinator during an interview.
- (c) The agency operates more than one facility, with each facility having a designated PREA compliance manager with sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards, as evidenced by compliance manager training. As noted in the PAQ, the Acting Deputy Warden has been

designated as the PREA compliance manager for this facility and reports to the Warden. This was verified by the PREA compliance manager during an interview.

Based on the evidence presented, the facility is in compliance with this standard.

115.12 Contracting with other entities for the confinement of inmates

Auditor Overall Determination: Meets Standard

Auditor Discussion

As noted in the PAQ, the agency does not contract with private agencies or other entities for the confinement of inmates.

Based on the evidence presented, the facility is in compliance with this standard.

115.13 Supervision and monitoring

Auditor Overall Determination: Meets Standard

- (a) As evidenced by policy 9.49-5, observations of supervision practices made during the site review, MAX post requirements and MAX PREA audit population data information, the agency ensures that each facility it operates develops, documents, and makes its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, the facility takes into consideration: (1) Generally accepted detention and correctional practices; (2) Any judicial findings of inadequacy; (3) Any findings of inadequacy from Federal investigative agencies; (4) Any findings of inadequacy from internal or external oversight bodies; (5) All components of the facility's physical plant (including "blind-spots" or areas where staff or inmates may be isolated); (6) The composition of the inmate population; (7) The number and placement of supervisory staff; (8) Institution programs occurring on a particular shift; (9) Any applicable State or local laws, regulations, or standards; (10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and (11) Any other relevant factors. This was verified during interviews with the warden and the PREA compliance manager.
- (b) As evidenced by the PAQ, observations of supervision practices made during the site review, and in an interview with the warden, the facility has not had to deviate from staffing plan.
- (c) As evidenced by policy 9.49-5, a review of staffing plan annual reviews for

multiple years and interviews with the PREA coordinator, once each year, for each facility the agency operates, in consultation with the PREA coordinator, the agency assesses, determines, and documents whether adjustments are needed to: (1) The staffing plan established pursuant to paragraph (a) of this section; (2) The facility's deployment of video monitoring systems and other monitoring technologies; and (3) The resources the facility has available to commit to ensure adherence to the staffing plan.

(d) The agency has implemented policies 9.49-5 and 9.05-3 and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Such policy and practice are implemented for night shifts as well as day shifts. Policy 9.49-5 prohibits staff from alerting other staff members that these supervisory rounds are occurring unless such announcement is related to the legitimate operational functions of the facility. This was evidenced by a review of the PREA unannounced rounds training curriculum, MAX brass post orders that include unannounced rounds, samples of unannounced rounds logs and attachments, and a review of video demonstrating unannounced rounds for each shift. This was verified during an interview with staff responsible for conducting PREA unannounced rounds.

Based on the evidence presented, the facility is in compliance with this standard.

	As noted in the PAQ, the facility does not have youthful inmates (inmates <18 years old).
	Based on the evidence presented, the facility is in compliance with this standard.

115.15	Limits to cross-gender viewing and searches
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	(a) The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches except in exigent circumstances or when performed by medical practitioners, as evidenced by the PAQ, policies 9.14-9, 9.52 and 18.30-2, a review of MAX male only post orders and observations made during the site review.
	(b) As noted in the PAQ and observations made during the site review, the facility

does not have female inmates.

- (c) The facility would document any cross-gender strip searches and cross-gender visual body cavity searches, as evidenced by policies 9.14-9, 9.52 and 18.30-2.
- (d) The facility policy 9.49-5 enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks, as evidenced by the knock and announce posters, cross gender announcing and notification system, camera review memos, and observations made during the site review. Such policies and procedures require staff of the opposite gender to announce their presence when entering an inmate housing unit, as evidenced policy 9.49-5, knock and announce posters, cross gender announcing, and notification system and observations made during the site review. This was verified during interviews with fourteen random inmates and twelve random staff.
- (e) As evidenced by policies 9.52, 18.30-2 and 9.14-9, and statement of search showers and pronouns preference forms, the facility does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it may be determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. This was verified during interviews with random staff. At time of audit, this facility did not have any inmates that identified as transgender or intersex.
- (f) The agency trains security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs, as evidenced by a review of the training video and staff training logs and verified through interviews with random staff.

Based on the evidence presented, the facility is in compliance with this standard.

115.16

Inmates with disabilities and inmates who are limited English proficient

Auditor Overall Determination: Exceeds Standard

Auditor Discussion

(a) The agency takes appropriate steps to ensure that inmates with disabilities have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. In addition, the agency ensures that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities,

including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. This is evidenced by policies 9.49-5, 1.13-1, 13.10-5, and 18.22; certified Spanish interpreter list; international language list; LEP tracking forms; LEP staff training curriculum and training logs; telephonic interpretation instructions; reporting posters in English and Spanish; PREA brochures in English, Spanish, Chinese and Portuguese; DOJ PREA notices in English and Spanish; PREA video in English and Spanish, with subtitles in Hmong; PREA video transcripts in large print and in Portuguese, English, Spanish, and Braille; inmate comprehensive education acknowledgement forms; Day One guides in English, Spanish and braille; and third party reporting posters in English and Spanish. This was verified through observations made during the site review, and interviews with the Assistant Director of Institutions and Operations and five inmates with disabilities or who are limited English proficient.

- (b) The agency takes reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary, as evidenced by policies 9.49-5, 1.13-1, 13.10-5, and 18.22; certified Spanish interpreter list; international language list; LEP tracking forms; LEP staff training curriculum and training logs; telephonic interpretation instructions; reporting posters in English and Spanish; PREA brochures in English, Spanish, Chinese and Portuguese; DOJ PREA notices in English and Spanish; PREA video in English and Spanish, with subtitles in Hmong; PREA video transcripts in large print and in Portuguese, English, Spanish, and Braille; inmate comprehensive education acknowledgement forms; Day One guides in English, Spanish and braille; and third party reporting posters in English and Spanish. This was verified through observations made during the site review, and interviews with five inmates with disabilities or who are limited English proficient.
- (c) The agency does not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first-response duties under § 115.64, or the investigation of the inmate's allegations, as evidenced by policies 1.13-1 and 9.49-5 and interviews with random staff and five inmates with disabilities or who are limited English proficient.

Based on the evidence presented, the facility exceeds compliance with this standard, due to the variety and quantity of materials provided to inmates with disabilities and who are limited English proficient to ensure they have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

(b) The protocol is developmentally appropriate for youth where applicable, and as appropriate, and adapted from or otherwise based on the most recent edition of the U.S. Department of Justice's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/ Adolescents," or similarly comprehensive and authoritative protocols developed after 2011, as verified by a review of the unform evidence protocols. (c) The agency offers all victims of sexual abuse access to forensic medical examinations at an outside facility, without financial cost, where evidentiarily or medically appropriate. Such examinations are performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. The agency documents its efforts to provide SAFEs or SANEs. - (c) Such assessments are conducted using an objective screening instrument, as evidenced by a review of risk screens.
- (d) The intake screening considers, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (1) Whether the inmate has a mental, physical, or developmental disability; (2) The age of the inmate; (3) The physical build of the inmate; (4) Whether the inmate has previously been incarcerated; (5) Whether the inmate's criminal history is exclusively nonviolent; (6) Whether the inmate has prior convictions for sex offenses against an adult or child; (7) Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; (8) Whether the inmate has previously experienced sexual victimization; (9) The inmate's own perception of vulnerability; and (10) Whether the inmate is detained solely for civil immigration purposes. This was evidenced by a review of the risk screening instrument, observations made during the site review and interviews with staff responsible for risk screenings.
- (e) The initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing inmates for risk of being sexually abusive, as evidenced by This was evidenced by a review of the risk screening instrument, observations made during the site review and interviews with staff responsible for risk screenings.

- (h) Inmates may not be disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked pursuant to paragraphs (d)(1), (d)(7), (d)(8), or (d)(9) of this section, as evidenced by policy 9.33-6 and interviews with staff responsible for risk screenings.

with the PREA coordinator, PREA compliance manager and staff responsible for risk screenings.

Based on the evidence presented, the facility is in compliance with this standard.

115.42 Use of screening information

Auditor Overall Determination: Exceeds Standard

- (a) The agency uses information from the risk screening required by § 115.41 to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive, as evidenced by policy 9.33-6, PREA color codes SOP, review of risk-based housing decisions and interviews with the PREA compliance manager and staff responsible for risk screenings. The PREA color for each inmate allows them to make appropriate housing decisions.
- (b) The agency makes individualized determinations about how to ensure the safety of each inmate, as evidenced by policy 9.33-6, PREA color codes SOP and interviews with staff responsible for risk screenings.
- (c) In deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems, as evidenced by policy 9.52, shower and pronoun preference form, housing request form, housing recommendation form, six-month review form, gender diverse and intersex inmates six-month facility review schedule, transgender presentation, training log, risk-based housing documentation, and an interview with the PREA compliance manager. - (f) Transgender and intersex inmates are given the opportunity to shower separately from other inmates, as evidenced by shower preference forms, observations made during the site review, and interviews with the PREA compliance manager and staff responsible for risk screenings. During the site review, inmates were observed wearing shower shorts while showering. This is required of all inmates.
- (g) The agency does not place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status, unless such placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such inmates, as evidenced by housing assignments, observations made during the site review and interviews with the PREA coordinator and the PREA compliance manager.

Based on the evidence presented, the facility exceeds compliance with this standard, due to the integration of a Gender Diverse and Intersex Review Board to make recommendations to assign a gender diverse or intersex inmate to a facility that houses males or females.

115.43 Protective Custody

Auditor Overall Determination: Meets Standard

- (a) Inmates at high risk for sexual victimization are not placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment, as evidenced by policy 12.1-2. According to an interview with the warden, inmates at high risk of sexual victimization are not placed in involuntary segregated housing.
- (b) Inmates placed in segregated housing for this purpose would have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility will document (1) The opportunities that have been limited; (2) The duration of the limitation; and (3) The reasons for such limitations. According to an interview with the warden and staff who supervise inmates in segregated housing, inmates at high risk of sexual victimization are not placed in involuntary segregated housing.
- (c) The facility assigns such inmates to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment will not ordinarily exceed a period of 30 days. According to an interview with the warden and staff who supervise inmates in segregated housing, inmates at high risk of sexual victimization are not placed in involuntary segregated housing.

- (d) If an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, the facility would clearly document (1) The basis for the facility's concern for the inmate's safety; and (2) The reason why no alternative means of separation can be arranged. According to the PAQ and an interview with the warden, in the past 12 months, no inmates at high risk of sexual victimization were placed in involuntary segregated housing.
- (e) Every 30 days, the facility will afford each such inmate a review to determine whether there is a continuing need for separation from the general population. According to the PAQ and an interview with the warden, in the past 12 months, no inmates at high risk of sexual victimization were placed in involuntary segregated housing.

Based on the evidence presented, the facility is in compliance with this standard.

115.52 Exhaustion of administrative remedies

Auditor Overall Determination: Meets Standard

Auditor Discussion

(a) (b) (c) (d) (e) (f) (g) The agency does not have an administrative procedure to address inmate grievances regarding sexual abuse, as evidenced by policy 13.10-5. supervise segregated housing. At time of audit, there were no inmates being held in segregated housing for risk of sexual victimization or who allege to have suffered sexual abuse. - (c) Investigators stated during interview that they gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; and review prior complaints and reports of sexual abuse involving the suspected perpetrator. This was evidenced by a review of investigation reports.
- (d) When the quality of evidence appears to support criminal prosecution, the agency conducts compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution, as evidenced by an interview with investigators and a review of investigation files.
- (e) During interviews with investigators and inmates who reported sexual abuse, the credibility of an alleged victim, suspect, or witness is assessed on an individual basis and will not be determined by the person's status as inmate or staff. The agency will not require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of

such an allegation.

- (f) Investigators stated that administrative investigations (1) will include an effort to determine whether staff actions or failures to act contributed to the abuse; and (2) will be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. This was evidenced by newspaper articles, review of the PREA investigation and interviews with investigators.
- (i) The agency retains all written reports for as long as the alleged abuser is incarcerated or employed by the agency, plus five years, as evidenced by policies 5.01-5 and 9.49-5, PREA sexual abuse investigations SOP, observations made during the site review and a review of investigation files.
- (j) The departure of the alleged abuser or victim from the employment or control of the facility or agency will not provide a basis for terminating an investigation, as evidenced by interviews with investigators.
- (I) When outside agencies investigate sexual abuse, the facility will cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation, as evidenced by interviews with the warden, PREA coordinator, PREA compliance manager and investigators.

evidence sufficient to substantiate the allegation, as evidenced by policy 9.49-5.

(g) The agency may, in its discretion, prohibit all sexual activity between inmates and may discipline inmates for such activity. The agency may not, however, deem such activity to constitute sexual abuse if it determines that the activity is not coerced, as evidenced by policies 9.49-5 and 11.01-8.
