Do You Need Support For COVID-19?

Since COVID-19 started, a lot of things have changed.

This flyer has information about different places that are ready to help Rhode Islanders. If you have questions about COVID-19, call the COVID-19 Hotline at **401-222-8022**, Monday – Friday, 8:30 a.m. – 4:30 p.m. Call 2-1-1 when the COVID-19 Hotline is closed. Staff speak many languages and can also connect you to an interpreter who speaks your language while you are on the phone.

We all want to stay safe and healthy during this time. The best way to do this is to stay home as much as possible. If you leave the house you should wear a cloth face covering and stay six feet away from other people.

FREE COVID-19 TESTING

If you have symptoms of COVID-19, you should get a COVID-19 test. Symptoms of COVID-19 can include fever or chills, cough, shortness of breath or trouble breathing, muscle aches, runny nose or stuffy nose, sore throat, headache, nausea or vomiting, fatigue, recent loss of taste or smell, or diarrhea. Some people have only one or two symptoms that are very mild. You can get a test regardless of your immigration or health insurance status.

There are different places in Rhode Island that you can get a COVID-19 test. Some of the test sites will let you walk through – you do not need a car. You will need to have proof of identity. If you do not have a photo ID, you can show a utility bill, cell phone bill, or bank statement. To find a testing site that is best for you, call **401-222-8022**, 2-1-1, or visit health.ri.gov/covid/testing or bit.ly/covidtesting-sp (Spanish).

If you need transportation to a testing location, call **401-222-8022** or visit health.ri.gov/covid/testing for information about available programs.

If you are unsure if you need to get a COVID-19 test, use RIDOH's online COVID-19 Self-Checker at <https://covidselfcheck.ri.gov/>. It is available in English, Spanish, and Portuguese. You answer questions and it will help you decide if you need to call your doctor or get a COVID-19 test.
