<p>Number of inmate housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	8

Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Danielle Frane, a U.S Department of Justice (USDOJ) Certified PREA Auditor for Adult Facilities, conducted the Prison Rape Elimination Act (PREA) on site audit for the Rhode Island Department of Corrections (RIDOC) Maximum Security Facility in Cranston, Rhode Island from June 14-15, 2021. The assigned auditor was contacted by PREA Auditors of America to conduct this audit. This is the third PREA audit for this facility.

On May 3, 2021, a kick-off conference call with the agency's PREA Coordinator was conducted with RIDOC. Following the brief introductions, an overview of the PREA audit as well as logistics, unimpeded access to the facility, documents and staff. Also discussed was the audit process and purpose, the role of the auditor and the goal and expectations of the audit were established. The purpose of corrective action as well as timelines and milestones discussion completed the call. The Auditor provided the facility with audit notices in both English and Spanish to the agency's PREA Coordinator with instructions to post copies in the housing units and other places deemed appropriate by facility Staff. The audit notices advised the inmate population, both in English and Spanish, that a PREA audit was being conducted. The notice provided the dates of the intended audit, as well as a mailing address for the Auditor in the event that an individual wishes to contact the Auditor prior to arriving at the facility. The audit notice also advised that any correspondence can be sent in a confidential manner, consistent with the Legal Mail process. The legal mail process at RIDOC allows for the inmates to send legal correspondence to an approved recipient in a way that ensures that the content of the letter is not reviewed by facility staff which ensures that the information is relayed confidentially.

The notices were posted throughout the facility, in areas that are both accessible to both inmates and staff. The PREA Coordinator forwarded to the Auditor eleven (11) time/date stamped pictures of different location within the facility to include general areas and housing units. The pictures reflected a date stamp of May 3, 2021 indicating that they were posted within six weeks to the first day of the on-site. The posted notices were observed in the photographed locations as well as numerous other locations during the on-site audit tour.

The page also provides all of the PREA Audit Reports completed for each RIDOC facility, the Prison Rape Elimination Act (PREA) agency policy in English and Spanish, the Annual Reports beginning in 2014 to 2020, the PREA brochures in English and Spanish and a link to the PREA Resource Center.

On May 13, 2021 the Pre-Audit Questionnaire, audit map process, policies and procedures were received on a thumb drive from the Rhode Island Department of Corrections. The thumb drive contained a subfolder for each standard that included relevant policies and procedures and supporting documentation to support compliance.

On May 31, 2021 this Auditor contacted Just Detention International (JDI) to identify any allegations, information or complaints regarding the Maximum Security Facility at Rhode Island Department of Corrections in the past 12 months.

On June 3, 2021, an update call was conducted with the PREA Coordinator and logistical items were discussed concerning the upcoming on-site portion. The Auditor advised that an extensive comprehensive tour will be conducted, with un-impeded access to all areas of the RIDOC. There were further discussions related to a quiet and private location where inmates and staff could be interviewed. Following this call, a request was made to RIDOC to provide this additional documentation for the first day of the audit. The documentation included a daily population report; staff roster to include all departments; inmate roster by housing unit; list of staff who perform the risk assessments; list of medical and mental health staff, list of contractors and volunteers, list of inmates with a PREA classification (potential victim and aggressor), list of inmates that reported sexual abuse, list of disabled (hearing, sight or low cognitive skills), list of lesbian, bisexual, transgender and intersex (LGBTI) inmates; list of inmates that reported sexual abuse; list of PREA incidents in the past 12 months and limited English proficient inmates, list of first responders from the reported allegations. This information was provided on the first day of the audit and was utilized to establish interviews for the random selection of inmates and staff to be interviewed; random and specialized interviews.

On June 14, 2021, the Auditor arrived at the facility and met with the Warden, Deputy Warden (who is also the Facility PREA Compliance Manager), Agency PREA Coordinator, and members of the facility's executive team. During the brief introductions, the agenda was discussed to include the facility tour, staff and inmate interviews. The Auditor provided an overview of the on-site audit process and methodology used to demonstrate PREA compliance. The Auditor explained that the audit process is designed to not only the written policies and procedures but also to determine whether such policies and procedures are reflected in the day-to-day practices of staff. The Auditor further explained that compliance with the PREA standards will be based on the review of the policies, procedures, observations made during the facility tour, additional onsite documentation review and conducting both staff and inmate interviews. There was one letter received from inmate prior to the start of the onsite. The facility count was 347 inmates on the first day and the facility does not hold inmates under the age of 18 years of age.

The Auditor utilized the Auditor Compliance Tool, Instructions for the PREA Audit Tour, the Interview Protocols, Process Map and the PREA Auditor Handbook for guidance during the audit process.

Following the entrance meeting, the Auditor conducted a thorough on-site tour of all areas of the facility, There are eight (8) inmate housing units that are all single cells and 34 segregation cells used for

administrative and protective custody inmates that are also single cells. The other areas viewed were medical, kitchen, laundry, intake processing area, prison industry area and the visiting area. During the tour, the Auditor made visual observations of the service and program areas and housing units including PREA educational materials available, showers, officer post sight lines to identify potential cross gender viewing concerns and camera locations. Privacy is maintained in the shower area with privacy screens and the inmates are required to wear shower shorts which the auditor observed from different angles in the housing unit to ensure privacy is maintained. In addition to custody staff, the facility maintains a complex camera monitoring system which covers all areas of the facility and monitored by staff 24/7/365. The Auditor did not observe any blind spots or problem areas during the tour.

During the tour of the entire facility, the Auditor asked impromptu questions (informal questions) of staff and inmates regarding PREA education, reporting methods and facility practices. The Auditor did observe when opposite-gender staff were observed entering into a housing unit, an announcement was always made by the respective staff member.

Following the tour, the requested information was reviewed:

1. Complete listing of all inmates at RIDOC
2. Roster of inmates with disabilities (blind, deaf, hard of hearing, cognitive disabilities and physical disabilities)
3. Roster of inmates who are Limited English Proficient (LEP)
4. Roster of inmates in segregated housing
5. Roster of inmates who are or are perceived as Gay, Lesbian or Bisexual
6. Roster of inmates who are or are perceived Transgender or Intersex
7. Roster of inmates who are in segregated housing for high risk of sexual victimization
8. Roster of inmates who reported prior sexual victimization during risk screening
9. Roster of inmates who reported sexual abuse that occurred at RIDOC or occurred in a different facility.
10. Complete staff roster
11. Complete list of contractors and volunteers
12. Copies of all incident review team cases conducted over the past 12 months
13. List of grievances for the past 12 months
14. List of all investigations for the past 12 months

All required facility staff and inmate interviews were conducted onsite during the two-day audit. The inmate interviews were held in a private office that afforded privacy for the interviews. The staff interviews were held in an private office which afforded privacy for the staff interviews. Based upon the inmate population of 347 at the facility on the first day of the onsite portion of the audit, the PREA Auditor Handbook specifies that a minimum of 26 total inmate interviews must be conducted; a minimum of 13 random inmates and 13 targeted inmate interviews are required. The random interviews selected by the Auditor from the housing rosters and designated lists of inmates provided by the facility.

During the interviews there were no barriers and the inmates acknowledged they had been screened during the intake process, received the education upon arrival to the Maximum facility, knew the methods on how to report and were familiar with the RIDOC PREA Policy that addressed the facility's zero tolerance towards sexual abuse and sexual harassment and their right to be free from retaliation for reporting. In regards to their personal safety at RIDOC, each of the inmates that were interviewed indicated that they felt safe from sexual abuse and sexual harassment.

The exit meeting was conducted on June 15, 2021 with the facility leadership and the auditor provided a summary of the onsite portion of the audit and provided information on the auditor's next steps.

The Auditor reviewed onsite document review notes, staff and inmate interview notes and site review notes and then began the process of completing the audit section of the compliance tool. Following the completion of the compliance tool, the Auditor started completing the final report. The final report will identify which policies and other documentation were reviewed, which staff and/or inmates interviews were conducted, what observations were made during the on-site review of the facility in order to determine compliance for each standard provision. The Auditor will then provide an explanation of evidence that was listed was applied to draw a final conclusion of whether the facilities policies, procedures and practice exceeds, meets or does not meet the standard.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Rhode Island Department of Corrections Maximum Security is the state's oldest operational prison. The agency marked the opening of the facility in 1878 and is modeled on the Auburn style construction which by design has all inmate cells into one main building. The mission of the Rhode Island Department of Corrections (RIDOC) is to contribute to public safety by maintaining a balanced correctional system of institutional and community programs that provide a range of custodial options, supervision and rehabilitative services in order to facilitate successful offender reentry into the community upon release.

The designed facility capacity for this facility is 466 inmates and the average daily population for the past 12 months has been 377 inmates. The facility houses male inmates between the ages of 18-82. The facility security levels/inmate custody is maximum security. The population is comprised of inmates serving long sentences for a variety of offenses along with other inmates that have transferred to this facility due to discipline and/or behavioral problems. While onsite, the auditor noted that the facility is able to house inmates in a safe and secure manner.

The number of inmates admitted into the facility during the past 12 months was 122 inmates. The number of inmates that in the past 12 months whose length of stay in the facility was for 72 hours or more was 105 inmates and those inmates length of stay for more than 30 days was 90. The facility does not house youthful offenders.

There are 170 staff currently employed by the facility that have contact with inmates and there have been zero (0) staff that have been hired during the past 12 months.

The facility is comprised of four (4) buildings that include the main living area, laundry, carpentry and education area. The main building has eight (8) housing units, which are all single cells. There have been thirty-four (34) cells designated as segregation cells that are for administrative, disciplinary and protective custody housing.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents:

1. Rhode Island Department of Corrections Pre-Audit Questionnaire responses
2. Rhode Island Department of Corrections PREA Policy 9.49-4
3. Rhode Island Department of Corrections Organizational Chart

Interviews:

1. PREA Coordinator
2. PREA Compliance Manager

Site Review Observations:

1. Observations during the on-site review of physical plant

115.11(a): The Rhode Island Department of Corrections policy 9.49-4 mandates a zero tolerance policy towards all forms of sexual abuse and sexual harassment. The policy does outline the agency's strategy to prevent, detect and respond to such conduct. The agency policy does address "preventing" sexual abuse and sexual harassment through the designation of a PREA coordinator and PREA Compliance Manager. The policy does include definitions of prohibited behaviors regarding sexual abuse and sexual harassment and the sanctions for those individuals found to have participated in prohibited behaviors. The policy does address "detecting" through staff training to include volunteers and contractors, intake screening, classification, inmate education and posting of signage (PREA posters). Finally, the policy does address "responding" to allegations of sexual abuse and sexual harassment through reporting, investigations, disciplinary sanctions for staff and inmates, incident review team and data collection and analysis. All of the staff interviewed were able to articulate the agency's zero tolerance policy towards sexual abuse and sexual harassment and did discuss the agency's strategy to prevent, detect and respond to such conduct. The policy is consistent with the PREA standards and outlines the agency's approach to prevent, detect and respond to sexual abuse and sexual harassment.

115.11(b) The RIDOC employs an upper-level, agency-wide PREA coordinator and has outlined their responsibilities in the agency's PREA policy 9.49-4. The policy addresses the requirements that the PREA coordinator will be responsible for; assisting with the development and implementation of PREA-related policies, develop and coordinate procedures to triage allegations received and identify, monitor and track incidents of sexual abuse. Other responsibilities include identify and track referrals of allegations to law enforcement and prosecutors, develop and implement a comprehensive system to audit compliance with PREA policies and applicable laws, oversee monitoring of PREA compliance with private and non-departmental public entities contracted for offender and inmate confinement. The PREA coordinator will also keep management informed of PREA-related issues, maintain a memorandum of understanding for external victim advocacy, maintain PREA content for the departmental website, including publication of the required information and documents and conducting training for all staff on PREA compliance and policy. The PREA coordinator has enhanced the agency's commitment to PREA compliance in the facility. During the site review, the PREA coordinator and the

PREA Compliance Manager demonstrated the knowledge of the agency's policy. During their interviews, they discussed that they feel there is enough time to manage all of the PREA related responsibilities. The PREA coordinator is specifically assigned to oversee PREA compliance for the entire agency.

The evidence reviewed by the auditor shows that the agency has designated an upper-level agency-wide PREA coordinator as verified through the organization chart and the interview with the PREA coordinator. Based on the review of the Pre-Audit Questionnaire, the related documents submitted, she demonstrated that she has sufficient time and authority to accomplish the PREA responsibilities for the agency.

115.11(c): The agency operates a number of facilities and has designated a PREA compliance manager specifically assigned to each facility to handle the day-to-day PREA related responsibilities. During her interview, the PREA compliance manager did state that she does have sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards.

Based upon the review and analysis of all the available evidence, the auditor finds the facility is substantially compliant with this standard and corrective action is required.

2. PREA Coordinator
3. Intermediate or Higher Level Facility Staff

Site Review Observations:

1. Observations during the on-site review of physical plant

115.13(a) The RIDOC PREA policy 9.49-4 discusses how the facility will operate to develop, document and make its best effort to comply on a regular basis with a staffing plan that provides adequate levels of staffing. The PAQ indicates that the average daily number is three hundred seventy seven (377) inmates and the average daily number of inmates in which the staffing plan is based on the operating capacity of four hundred sixty (460) inmates. The auditor reviewed master shift logs and schedules and found that the staffing plan is adhered to at all times. The PREA Staffing Plan Annual Review is reviewed on a yearly basis by the Warden PREA coordinator, PREA compliance manager and Security Specialist. There was no indication through interviews, the documentation provided and the site review that the staffing analysis is not adhered to.

115.13(b) The auditor has determined that this provision has been determined through interviews with the PREA Coordinator, review of log books and staff schedules to be Not Applicable due to the fact that the RIDOC has not deviated from the staffing plan. The auditor randomly reviewed five (5) months of staff schedules and the RIDOC has not deviated from the staffing plan.

115.13(c) The PREA Coordinator indicated that she would address and document with the Warden whether adjustments are needed to the staffing plan established, the facilities deployment of video monitoring systems and the resources that facility has available to commit and ensure adherence to the staffing plan. The PREA Staffing Plan Annual Review is reviewed on a yearly basis by the Warden PREA coordinator, PREA compliance manager and Security Specialist.

115.13(d) The RIDOC has addressed this provision, “the Facility Warden, Deputy Warden or Shift Commanders shall conduct at least one (1) PREA unannounced round of all areas of the facility on each shift, with a minimum of one (1) PREA unannounced round per month to prevent sexual abuse and sexual harassment”. In accordance with RIDOC policy 9.05 Institutional Log Book System, once an announced round is completed the staff member completing the round will document it. The auditor reviewed twenty six (26) unannounced rounds as well as video surveillance for verification. RIDOC Policy 9.49-4 also states “staff is prohibited from alerting other staff members to supervisory rounds unless such an announcement is related to the legitimate operational functions of the facility”. Interviews conducted with intermediate or higher staff confirmed that they conduct unannounced rounds. During the onsite review, informal conversations with staff assigned to the housing units reiterated that they are not alerted prior to higher level or intermediate coming into the housing unit. Through interviews with staff and inmates as well as the on-site tour, it was confirmed that unannounced rounds are done randomly throughout the facility. The intermediate and higher-level security staff stated during interviews that they conduct random rounds by varying the pattern and times of their rounds

Based upon the review and analysis of all of the available evidence, the auditor has determined that the agency is fully compliant with this standard. No corrective action is required.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents:

1. Rhode Island Department of Corrections Pre-Audit Questionnaire responses
2. Rhode Island Department of Corrections PREA Policy 9.49-4
3. Rhode Island Department of Corrections Detecting and Confiscating on or in the Possession of Inmates/Detainees Policy 9.14-8
4. Rhode Island Department of Corrections Search Training Powerpoint developed by the PREA Resource Center
5. Standard Operating Procedure of Identification, Treatment and Management of Transgender and Intersex Inmates
6. Rhode Island Department of Corrections PREA Announcement Signs
7. Rhode Island Department of Corrections Staff Training Records

Interviews:

1. Non-medical staff
2. Random Sample of Staff
3. Random Samples of Inmates

Site Review Observations:

1. Observations during the on-site review of physical plant

115.15(a) The RIDOC policy 9.14-8 has addressed this provision, the RIDOC employees will not conduct cross-gender strip searches without approval of the Shift Commander prior to conducting the search. The use of body cavity searches is authorized only pursuant to a Court Order obtained by RIDOC legal staff or with the written consent of the inmate. In the event that a search did take place, it would be conducted by a health care professional in an "outside" (off-site) medical facility and that would be arranged by the RIDOC Medical Program Director. Frisk searches are conducted by a

Correctional Officer of the same sex as the inmate, whenever possible. The auditor reviewed the Search Preference request for Transgender/Intersex inmates. This included a search preference statement from the inmate as well as a search response from the RIDOC regarding the request. The PAQ reports that in the last twelve months there have been zero (0) instances where a cross-gender strip search or cross-gender body searches of inmates. Also reported in the PAQ was a zero (0) number of cross-gender strip or cross gender body cavity searches of inmates that did not involve exigent circumstances. Interviews with staff were consistent that staff have not conducted cross-gender strip or cross-gender visual body cavity searches. The interview conducted with medical staff reiterated there were not any instances where medical staff conducted such searches. The interviews conducted with random inmates also reiterated that cross-gender strip searched and pat searches do not take place.

115.15(b) The RIDOC Maximum Security facility does not house female inmates; therefore, this provision is not applicable.

115.15 (c) The RIDOC policy requires that all cross-gender searches conducted be documented. The PAQ reports that in the last twelve months there have been zero (0) instances where a cross-gender strip search or cross-gender body searches of inmates. Also reported was a zero (0) number of cross-gender strip or cross gender body cavity searches of inmates that did not involve exigent circumstances. This facility does not house female inmates.

115.15 (d) The RIDOC policies do specifically address that “all inmates will be allowed to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia except in exigent circumstances or when such viewing is incidental to routine cell/dorm checks”. It is the practice at the RIDOC that officers of the opposite gender shall announce their presence when entering a living unit. The announcement will be made in such a manner as “male/female officer on the unit or male/female officer on the floor”. The announcements will also apply to non-uniform staff when they enter a housing unit of the opposite sex. During the onsite, the auditor observed that prior to entering the housing there is a sign reminding staff of their duties to announce that references this provision. The announcement was made clearly and loudly prior to entering the housing unit. The random staff interviews indicated that this is a facility wide process and staff are aware of their responsibility to make that announcement. The random inmates interviews reiterated that this announcement is a common practice that is heard frequently throughout the day.

115.15 (e) The RIDOC policy 9.14-8 do address specifically that “frisk and/or strip searches are not conducted for the sole purpose of determining the inmate’s gender”. The PAQ has reported that there have been zero (0) searches that have occurred in the past 12 months. Staff interviews echoed the facilities procedures that they will not search or physically examine to determine gender.

115.15(f) The RIDOC has trained 100% of the staff with a training curriculum from the RIDOC training. A review of all of the training records demonstrated that all of the staff have been trained in both of these areas. The staff discussed that they have received this training and are provided refresher during yearly trainings.

Based upon the review and analysis of all of the available evidence, the auditor has determined that the agency is fully compliant with this standard.

Interviews:

1. Warden
2. Random Sample of Staff
3. Inmates with disabilities or who are limited English proficient

Site Review Observations:

1. Observations during on-site review of physical plant

115.16 (a) The RIDOC policy 9.49-4 mandates a zero tolerance towards all forms of sexual abuse and sexual harassment and describes in detail approaches taken to prevent, detect and respond to such conduct. The RIDOC policies addresses what measures are taken to ensure that those inmates with disabilities have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. The policies include definitions of prohibited behaviors regarding sexual abuse and sexual harassment and the sanctions for those individuals found to have participated in prohibited behaviors. The policies do address "detecting" through staff training to include volunteers and contractors. Finally, the policies do address "responding" to allegations of sexual abuse and sexual harassment through reporting, investigations and disciplinary sanctions for staff and inmates.

115.16 (b) The agency does take reasonable steps to ensure meaningful access to all aspects of the agency's efforts to PREA related materials to include Spanish policies, brochures and posters. For inmates identified as hard of hearing or deaf, the RIDOC does provide a PREA video that includes close captioning. For those inmates that are blind the agency provides the PREA information in braille. The RIDOC will use certified staff interpreters in the event that they need to communicate with a limited English-speaking inmate. If a staff member is not available, the agency utilizes Dorcas International to provide the language line services. The auditor utilized a certified staff interpreter to assist in two (2) interviews with limited English speaking inmates.

115.16 (c) The agency does refrain from relying on inmate interpreters, inmate readers or other types of inmate assistance except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety. Staff were interviewed and reaffirmed they would utilize the certified staff interpreters or the language line services.

Based upon the review and analysis of all of the available evidence, the auditor has determined that the agency is fully compliant with this standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Documents:

1. Rhode Island Department of Corrections Pre-Audit Questionnaire responses
2. Rhode Island Department of Corrections PREA Policy 9.49-4
3. Rhode Island Department of Corrections Policy 9.40-5 Procedures for Contractors at Institutional Facilities
4. Rhode Island Department of Corrections Policy 3.14-3 Code of Ethics and Conduct
5. Rhode Island Department of Corrections Policy 9.50 Office of Inspection

8. Rhode Island Department of Corrections PREA Supplemental Questionnaire
9. Personnel Records

Site Review Observations:

1. Observations during on-site review of physical plant

115.17 (a) The RIDOC policy language states that it “does not hire or promote anyone who may have contact with inmates, and shall not enlist the services of any contractor who may have contact with inmates who; has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997) or who has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse or has been civilly or administratively adjudicated to have engaged in the activity described in paragraph (a)(2) of this section. This auditor reviewed that proper criminal record background checks have been conducted and questions regarding past conduct were asked and answered.

The background check is consistent with Federal, State and local laws and the agency would make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. The five files reviewed were compliant with the process in place.

115.17 (b) The RIDOC policies include the language that “shall consider any incidents of sexual harassment in determining whether to hire or promote anyone or to enlist the services of any

contractor, who may have contact with inmates”. During the interview, the Human Resources staff have a clear understanding of the PREA standards that pertain to hiring and promoting staff.

115.17 (c) Before hiring new employees and as part of any promotional process, RIDOC shall conduct appropriate background checks on all applicants and employees who may have contact with inmates. The Rhode Island Department of Corrections conducts a criminal background records check that is consistent with Federal, State, and local law; make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. The auditor reviewed pre-employment background investigations, promotional background investigations, temporary (3-day rule) promotional investigations, new hire (non-uniform) background investigations and contractor investigations.

115.17 (d) The Rhode Island Department of Corrections performs a criminal background records check before enlisting the services of any contractor or volunteer who may have contact with inmates. The Human Resources staff reiterated that contractors and volunteers would undergo the same background check process as new employees.

115.17 (e) The Rhode Island Department of Corrections PREA policy 9.49-4 states that “criminal background records checks every five (5) years of employees and at least every two (2) years for contractors and volunteers who may have contact with inmates”. The auditor reviewed personnel folders that included the background records checks of all current staff, contractors and volunteers that have contact with inmates.

115.17 (f) The Rhode Island Department of Corrections PREA policy 9.49-4 states that “the RIDOC shall ask all applicants and employees who may have contact with inmates directly about previous misconduct described in the written applications or interviews for hiring or promotions and in any interviews or written self-evaluations conducted as part of reviews of current employees”. The individuals shall complete the Prison Rape Elimination Act Supplemental Questionnaire for this purpose.

115.17 (g) The Rhode Island Department of Corrections does include language in their PREA policy 9.49-4 that “employees have a continuing affirmative duty to disclose any such misconduct, material omissions regarding such misconduct, or the provision of materially false information, are grounds for staff termination”. The PAQ indicates that no staff have been terminated from Rhode Island Department of Corrections for omissions regarding misconduct. The interview with Human Resources staff reaffirmed the information provided on the PAQ.

115.17 (h) Unless prohibited by law, RIDOC’s OI shall provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work. The request for a reference or release of employment shall be immediately forwarded to the Office of Human Resources. The HR staff was aware of this provision and discussed during their interview the process in place for this request for information from an institutional employer.

Based upon the review and analysis of all of the available evidence, the auditor has determined that the agency is fully compliant with this standard.

115.18 (a) The RIDOC has not acquired a new facility or made a substantial expansion or modification to existing facilities since August 20, 2012, or since the last PREA audit, whichever is later. 115.33(a): The RIDOC policy does address that during the intake and commitment to each facility the inmates shall receive information explaining the RIDOC's zero tolerance policy regarding sexual abuse and sexual harassment and how to report such incidents or suspicions. This auditor conducted twenty seven (27) inmate interviews, in which all of the inmates discussed the PREA information and education provided. All inmates were able to provide the auditor with the information about the reporting mechanisms offered at the facility.

115.33(b): The RIDOC policy does address that RIDOC will provide comprehensive education to inmates regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents. During the interviews with the inmates, they were able to articulate the reporting mechanisms available if they were to report an allegation and were able to discuss comprehensive education that they received about PREA.

115.33(c): The RIDOC policy does address that "within thirty (30) days of intake to a facility, the facility shall provide comprehensive education to inmates either in person or through video regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding RIDOC's policies and procedures for responding to such incidents". An interview with Intake staff stated that all current inmates have received the education during their intake. The random inmate interviews conducted were able to discuss comprehensive education that they received about PREA.

115.33(d): The RIDOC policy does address that the "RIDOC will provide inmate education in formats accessible to all inmates, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. For the deaf or hearing impaired inmates the training is available through print or close captioning. The visually impaired inmates receive the training through audio materials; braille materials are also available as needed. There are translation services offered for those inmates that are limited English proficient.

115.33(e): The RIDOC policy addresses that the RIDOC will maintain documentation of inmate participation in this education session. The RIDOC does have the inmates sign an acknowledgement form that they have been oriented to PREA.

115.33(f): The RIDOC also maintains key PREA (reporting options and the zero-tolerance policy) information that is readily available to inmates through the use of posters placed in inmate living areas within the housing units. These posters were visible during the on-site review.

Based upon the review and analysis of all of the available evidence, the auditor has determined that the agency is fully compliant with this standard.

2. Rhode Island Department of Corrections Inmate Housing Assignment Policy 9.33-6
3. Rhode Island Department of Corrections Intake Commitment Process 14.01-4
4. Rhode Island Department of Corrections Receiving Screening and Mental Health Evaluating New Commitment 18.30-2
5. Inmate Files

Interviews:

1. Staff responsible for risk screening
2. Random Inmates

Site Review Observations:

1. Observations during on-site review of physical plant

115.41(a) The RIDOC provided the specific language to address this provision “that all inmates are assessed during an intake screening for their risk of being sexually abused by other inmates or sexually abusive toward other inmates”. The auditor observed this process during the onsite review that this assessment is completed.

115.41(b)The RIDOC policies address that the “upon intake and commitment the assessment takes place”. The interviews conducted with staff that are responsible for the risk screening indicated the intake screenings are typically completed within a few minutes of admission. There were twenty seven (27) inmate interviews and all of the inmates indicated that they were asked about sexual orientation, prior sexual abuse and their own perception of their safety.

115.41(c) The PREA screening assessments are conducted using an objective screening tool which was verified by the auditor during the on-site review.

115.41(d) The intake screening tool at the RIDOC considers the following criteria to assess inmates for risk of sexual victimization: whether the inmate has a mental, physical, or developmental disability, assess inmates for risk of sexual victimization, the age of the inmate, the physical build of the inmate, whether the inmate has previously been incarcerated, whether the inmate's criminal history is exclusively nonviolent, whether the inmate has prior convictions for sex offenses against an adult or child, whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming, has previously experienced sexual victimization, the inmate's own perception of vulnerability and whether the inmate is detained solely for civil immigration purposes. Staff reaffirmed that this information is asked of all inmates during Intake.

115.41(e) When assessing inmates for risk of being sexually abusive, the RIDOC initial PREA risk screening considers the following, prior acts of sexual abuse, prior convictions for violent offenses, history of prior institutional violence or sexual abuse. The staff interviews reaffirmed that this information is gathered during the intake process.

115.41(f) The RIDOC policies do address that "within a set time period not more than 30 days from the inmate's arrival at the facility, the facility will reassess the inmate's risk of victimization or abusiveness based upon any additional, relevant information received by the facility since the intake screening". The initial assessment takes place during the intake and commitment and the 30-day assessment takes place at the facility receiving the inmate. The auditor observed a 30-day assessment that took place during the onsite.

115.41(g) The RIDOC policies do address that the facility "will reassess an inmate's risk level when warranted due to a: referral, request, incident of sexual abuse and receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness".

115.41(h) The RIDOC policy states, "the ID Captain or designee shall note on the form if the offender refused to answer the PREA questions or if the offender refused to sign the form". Interviews conducted with staff reiterated that inmates would be not disciplined for refusing to answer the screening questions.

115.41(i) The RIDOC has implemented appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate's detriment by staff or other inmates. That information is electronically restricted and only authorized staff can access the information.

Based upon the review and analysis of all of the available evidence, the auditor has determined that the agency is fully compliant with this standard.

Site Review Observations:

1. Observations during on-site review of physical plant

115.43(a) The RIDOC reported in the PAQ that there were no inmates placed in involuntary segregation pursuant to sexual victimization. Inmates at high risk for sexual victimization cannot be placed in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers. Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Interviews:

1. Security Staff and Non-Security Staff First Responders

Site Review Observations:

1. Observations during on-site review of physical plant

115.64(a) The RIDOC staff upon learning of an allegation that an inmate was sexually abused, and the first security staff member to respond to the report is required to separate the alleged victim and abuser, preserve and protect any crime scene until appropriate steps can be taken to collect any evidence, request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence and ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence. All the staff that were interviewed have a strong knowledge of their duties and detailed how to respond effectively and professionally.
